

Insulin Pump and Continuous Glucose Monitoring INFORMATION SESSION

Learn about the MiniMed Paradigm[®] REAL-Time System

**Want to know your glucose levels 24 hours a day?
Tired of the ups and downs of insulin injections?**

Insulin pump therapy and continuous glucose monitoring (CGM) are proven effective for helping reduce dangerous lows and normalize glucose levels.

When: Wed, Feb 13, 08 @9:30-11:30 AM, Wed, Mar 12, 08 @5:30-7:30 PM, Wed, Apr 9, 08 @9:30-11:30 AM, Wed, May 14, 08 @5:30-7:30 PM
Place: Grunberger Diabetes Institute
43494 Woodward Ave Ste 208
Bloomfield Hills, MI 48302

An insulin pump gives you more precise control over insulin delivery so you can:

- Adjust insulin delivery — instead of relying on snacks — so you can control blood glucose levels and your weight, and *feel better now*
- Benefit from more flexibility surrounding food, meal schedules and exercise

Continuous Glucose Monitoring displays REAL-Time glucose readings, trend graphs, directional arrows and alarms – all day, all night – so you can:

- Take action right away* to gain greater control of your glucose levels
- Protect yourself from dangerous highs and lows

What you can expect from the program:

- An introduction to insulin pump therapy and CGM, including hands-on, basic button pushing
- Information regarding insurance coverage for insulin pump therapy

Reserve your seat by going to minimed.com/events, or call Donna Witt at 1-800-MINIMED (1.800.646.4633) ext. 2766 for more information.
